4 March 2010

Dear Members

Evening Talk on Value for Money Auditing

**Monday, 31st May 2010
Yeo Pee Pin**

What you will gain from this Talk:

YOUR OPPORTUNITY TO...

Gain an insight into performance auditing/value-for-money auditing as a tool to enhance accountability, management control and performance.

Description

The first part of the talk will trace the development and practice of VFM auditing of public sector entities, focusing on the challenges and issues encountered and lessons learned. The second part of the talk will focus on the concept and need for such audits and provide an overview of the audit objectives, scope, approach and processes involved in planning and conducting VFM audits. Key factors for achieving successful VFM audits would also be discussed together with potential pitfalls and limitations.

About the Speaker

Mr Yeo Pee Pin retired from the Auditor-General's Office (AGO) in April 2009 as its Group Head (IT and Performance Audits), where he oversaw the organisation, planning and management of VFM audits and IT audits to enhance AGO's capability and credibility in VFM and IT auditing in the public sector. He has a vast amount of practical knowledge of the Government's accounts and operations, which he acquired after almost 42 years of Government audit. From 1980 till his retirement, Mr Yeo was the resource person and master trainer for VFM auditing in AGO where he was instrumental in the design and implementation of an intensive 3-month on-the-job training programme for internal auditors from the Statutory Boards. Mr Yeo has since joined the Civil Service College – Institute of Public Administration and Management as an associate trainer, where he continues to contribute to the learning and development of public officers through developing, delivering programmes and sharing his wealth of practical experience in Government auditing.

Who Should Attend

For auditors who would like to know about expanding the scope of audit beyond the statutory financial audits. For non-auditors, who want to be aware of how VFM audits can help them operate and perform more effectively, efficiently and economically; and facilitate such audits of their entities.
