2 Day Seminar on

Risk Based Auditing: A Value Add Proposition

26 – 27 July 2011 by Ms Deon Chan

What you will gain from this Talk:

YOUR OPPORTUNITY TO...

- Understand the importance of corporate governance and enterprise risk management
- Identify risks to strategy
- Define key business processes and objectives
- Perform a risk assessment
- Develop a risk-based assurance plan
- Understand entity-wide controls and their relevance in the audit plan
- Plan a risk-based engagement

Description

Internal auditing is a profession that's always evolving, always changing, especially in the area of risk-based auditing approaches. This is why successful audit leaders know that it's imperative that they continue to hone their skills in guiding their organizations' risk-based auditing, while improving their current internal audit processes.

Through case studies, group discussions, round tables, and supplemental lectures, this seminar will help audit team leaders and other management level audit professionals align their organizations' strategies, visions, and values with the internal audit process. Furthermore, participants will come to understand the importance of corporate governance and enterprise risk management, while learning to identify risks, perform risk assessments, develop a risk-based assurance plan, understand entity-wide controls, and plan a risk-based engagement.

2 Day Seminar on

Risk Based Auditing: A Value Add Proposition

26 – 27 July 2011 by Ms Deon Chan

What you will gain from this Talk:

YOUR OPPORTUNITY TO...

- Understand the importance of corporate governance and enterprise risk management
- Identify risks to strategy
- Define key business processes and objectives
- Perform a risk assessment
- Develop a risk-based assurance plan
- Understand entity-wide controls and their relevance in the audit plan
- Plan a risk-based engagement

Description

Internal auditing is a profession that's always evolving, always changing, especially in the area of risk-based auditing approaches. This is why successful audit leaders know that it's imperative that they continue to hone their skills in guiding their organizations' risk-based auditing, while improving their current internal audit processes.

Through case studies, group discussions, round tables, and supplemental lectures, this seminar will help audit team leaders and other management level audit professionals align their organizations' strategies, visions, and values with the internal audit process. Furthermore, participants will come to understand the importance of corporate governance and enterprise risk management, while learning to identify risks, perform risk assessments, develop a risk-based assurance plan, understand entity-wide controls, and plan a risk-based engagement.

Dear Members

2 Day Seminar on

Risk Based Auditing: A Value Add Proposition

26 – 27 July 2011 by Ms Deon Chan

What you will gain from this Talk:

YOUR OPPORTUNITY TO...

- Understand the importance of corporate governance and enterprise risk management
- Identify risks to strategy
- Define key business processes and objectives
- Perform a risk assessment
- Develop a risk-based assurance plan
- Understand entity-wide controls and their relevance in the audit plan
- Plan a risk-based engagement

Description

Internal auditing is a profession that's always evolving, always changing, especially in the area of risk-based auditing approaches. This is why successful audit leaders know that it's imperative that they continue to hone their skills in guiding their organizations' risk-based auditing, while improving their current internal audit processes.

Through case studies, group discussions, round tables, and supplemental lectures, this seminar will help audit team leaders and other management level audit professionals align their organizations' strategies, visions, and values with the internal audit process. Furthermore, participants will come to understand the importance of corporate governance and enterprise risk management, while learning to identify risks, perform risk assessments, develop a risk-based assurance plan, understand entity-wide controls, and plan a risk-based engagement.
